Prenatal Care Verification Form

Using the latest in 3D/4D fetal imaging, Special Delivery Prenatal Imaging, LLP allows your patients the opportunity to view their baby during a non- diagnostic ultrasound session. Our goal is to give parents a visual closeness with their unborn child and provide them with keepsakes of their baby. We do not provide measurements, determination of due dates or any other related diagnostic information. Our services are not intended as a replacement for a diagnostic exam. It is our policy that all women requesting an elective ultrasound provide documentation that they are receiving prenatal care. This form is a prerequisite before services can be completed. All ultrasounds will be performed by an ARDMS certified /registry eligible sonographer, using the latest technology in accordance with FDA regulations. If any emergent abnormalities are seen during our session, the patient's healthcare provider will be notified immediately.

My Patient _____ is currently receiving prenatal care for her pregnancy as directed. I hereby authorize my patients request to obtain an elective ultrasound with Special Delivery Prenatal Imaging, LLP. I understand that by signing this form, I am simply verifying the above statements, and not providing an order or referral. The above patient has requested this exam on her own, and has been self-referred to Special Delivery Prenatal Imaging, LLP.
